

# BDVA i-Spaces 2022

BDVA grants a label for European Data Innovation Spaces and Hubs to help drive forward Big Data adoption and AI-based innovation across all domains within European industry. Every year, existing hubs can obtain a label as a “BDVA i-Space”, after an evaluation process based on a comprehensive criterion catalogue.

The label is granted in three grades: Bronze, Silver and Gold. These grades are aligned with the maturity and potential impact of the candidates in five main domains: Excellence of infrastructure, Quality of Services, Projects and sectors, Impact on ecosystem and Business model.

The BDVA i-Space label is granted for the following DIHs:

BDVA Office - Data, AI and Robotics (DAIRO) aisbl  
Avenue des Arts, 56 - 1000 Bruxelles, Belgium
